

Mechanical Dust Collectors Parts

At ProcessBarron, we specialize in the design, fabrication, installation, and maintenance of high-performance dust collectors. We understand that a “one-size-fits-all” approach does not work in real world applications, that’s why we offer and stock four different dust collector tube sizes — 9”, 11.5”, 14”, and 24”.

Our tubes are manufactured using premium-grade materials, built by the experts you can trust.

PARTS CHART

Spare Part	Material	Installation
9" Inlet Tube Assembly	Cast (400BHN)	Bolt-in
9" Outlet Tube Assembly	Tube (400BHN)	Bolt-in
9" Outlet Tube Assembly	Tube (400BHN)	Weld-in
9" Guide Vanes	Cast (400BHN)	Drop-in
9" Guide Vanes	Cast (550 BHN)	Drop-in
11.5" Inlet Tube Assembly	Cast (400 BHN)	Bolt-in
11.5" Outlet Tube Assembly	Tube (400 BHN)	Bolt-in
11.5" Outlet Tube Assembly	Tube (400 BHN)	Weld-in
11.5" Guide Vanes	Cast (400 BHN)	Drop-in
11.5" Guide Vanes	Cast (550 BHN)	Drop-in
14" Inlet Tube Assembly	Tube (400BHN)	Bolt-in
14" Inlet Tube Assembly	Tube (400BHN)	Weld-in
14" Outlet Tube Assembly	Tube (400BHN)	Bolt-in
14" Outlet Tube Assembly	Tube (400BHN)	Weld-in
14" Guide Vanes	Cast (400BHN)	Drop-in
14" Conical Discharge Boot	Cast (400BHN)	Bolt-in
14" Hanger Rods for 2-Ear Boot	All-thread	Hardware Included
24" Inlet Tube Assembly	Tube (400 BHN)	Bolt-in
24" Inlet Tube Assembly	Tube (400 BHN)	Weld-in
24" Outlet Tube Assembly	Tube (400 BHN)	Bolt-in
24" Outlet Tube Assembly	Tube (400 BHN)	Weld-in
24" Guide Vanes	Cast (400 BHN)	Drop-in
24" Conical Discharge Boot	Cast (400 BHN)	Bolt-in
24" Hanger Rods for 4-ear Boot	All-thread	Hardware Included
