

Conveyor Components & Service

Parts & Components

Drag Chain - Full line of 142mm Forged and Welded Series

Sprockets and Hubs - Drag Chain, Shear Pin, Roller Chain, Submerged Idler, and Specialty Design

Rotary Valves, Double Dump Valves, and Isolation Gates

COMPONENTS INVENTORY

ProcessBarron's mission is to have the conveyor parts you need ready and available for quick delivery and installation. ProcessBarron can provide multiple styles and sizes of drag chain for all your conveying requirements. We keep a wide selection of sprockets and hubs in stock and have a full service machine shop ready 24/7 for boring and machining. We stock fully assembled rotary valves, double dump valves, and fly ash conditioners, and have a full line of cast and fabricated access doors.

Access Doors - Cast iron, tight sealing of varying alloys and custom built to any specifications

Ash Conditioners, Paddle Screws and Spray Nozzles

FIELD SERVICES

ProcessBarron can provide comprehensive inspection and maintenance services. We have trained materials handling equipment engineers and service technicians ready to work for you. By implementing regularly scheduled preventive maintenance inspections and maintenance services, we can ensure that your materials handling equipment performs reliably for years to come. We also offer engineered redesigns and upgrades on existing equipment, as well as installation of new components.

EMERGENCY REPAIR

ProcessBarron provides fast emergency repair services for equipment and components. Don't lose valuable time and money waiting on those not truly equipped to handle systems and equipment of your size or complexity. Our emergency crews are ready to serve you 24 hours a day. For emergency repair, call: 800-226-3267.
